FRENCH PROGRESS ON LAFOLIE HIGHTS

Germans Are Heavily Bombarding to Impede Advance

POSITIONS TAKEN EAST OF NAVARIN

AEROPLANE GUNS ATTACK THE TEUTON LINES

French Airships Throw Projectiles on German Means of Communication

PARIS, Oct. 2.—Despite a heavy German bombardment in the • Artois district, the French have made perceptible progress on the heights of La Folie, according to the war office. Important sections of the enemy's positions east of Navarin have been occupied. The French airships have thrown many projectiles on the railroad lines. behind the German front, with the object of interfering with the bringing forward of reinforcements and munitions. Guas mounted on French aeroplanes are successfully bombarding the German lines.

PHILLIE NATIONALS POSE AS CONTENDERS

L CONTEST FOR PREMIER HONORS ON THE PROFES SIGNAL DIAMOND

tlly Associated Press.)

NEW YORK, Oct. 2.—For the first time in the history of the world's se-ries the National league will be repre-sented by a Philadelphia club in the struggle for the premier honors of the professional diamond. Not since the organization of the senior major league back in 1876 has a Quaker City tesio in this association won a pen-nant until the present season. During the forty years of the Na-tional lengue's existence Philadelphia

has fought for the flag no less than thirty-four times and it remained for Manager Pat Moran to lead the Philips of 1915 out of the wilderness of baseball despair and into the light of a world's series. The home of William Penn was represented by a club in the in the opening year of the organizaout and did not re-appear as a pen

nant contender until 1883.
From that time until the present Philadelphia has annually figured in the league race but with rather indif-ferent success. The position of run-ner-up to the winner was achieved in 1887, 1901 and 1312, while the depth was reached in 1897 when the Phillies for the league of a seld

POWER COMPANY TO AID WATER DELVERS TWO HUNDRED LOST The Nevada-California Power com-|bringing of water to the surface to

The Nevada-California Power company announces its wish and plan to assist those who are endeavoring to develop water for the purpose of irrigating the valleys of southers Nevada. Co-operation will be had with Prof. Scrugham of the University of Nevada, who is engaged in these developments along the Amargosa valley from Beatty to Death valley junction.

It is said that in nearly all places a plentiful supply of water may be had

plentiful supply of water may be had make it profitable to pump water by at from 12 to 40 feet depth, while at electricity from the mighty under no point in the flats is water at any great distance. The land is arable leys that at present are arid to be above this great underground stream among the most productive in the

TWENTY MILLIONS IN

PRIZE MONEY READY

I By Associated Press.

LONDON, Oct. 2.—Prize money for officers and men of the navy has accumulated since the beginning of the war until it new amounts to twenty millions. The press is demanding its distribution.

Class ore for shipment.

On the 1330 level of the new company shaft the crosscut has reached the hanging wall of the ledge after passing through about \$4 feet of quartz on a dip of about 30 degrees from the horizontal. At right angles the ledge is in the neighborhood of 35 feet in width. In places it shows \$20 to \$30 a ton in values. There is a parallel vein believed to be in advance of this ledge and the crosscut has reached the hanging wall of the ledge after passing through about \$4 feet of quartz on a dip of about 30 degrees from the horizontal. At right angles to precipitate a general discussion of these proposed reforms during the next two years.

WORLO'S SERIES OPENS of the press is demanding its alter which drifts will be started on the first vein and, if deemed advisable, stopes will be extended. The showing is the most favorable that the company has had in a long time.
